

EXTENDED LIFE ANTIFREEZE/COOLANT

Energeo ELC Antifreeze/Coolant product is an ethylene glycol (EG) based product that are recommended for use in a wide variety of cooling system applications including on-road, off-road and stationary engine applications. These products are also recommended in mix fleet applications where heavy duty and light duty trucks are present. Please check your OEMs coolant recommendations.

Energeo ELC Antifreeze/Coolant products do not require the addition of supplemental coolant additives (SCA) to obtain their service life of 250,000 Kilometers or 4,000 hours of on-road and off-road use. Heavy duty engines regardless of fuel type or environmental controls being used where the OEM recommends a silicate free, extended life coolant that contains nitrites.

APPLICATIONS/ BENEFITS

- Compatible with all other coolants
- Maximum corrosion protection
- Maximum liner pitting protection

TYPICAL CHARACTERISTICS

EXTENDED LIFE ANTIFREEZE/COOLANT	RESULT
Appearance	Red
Specific gravity 15/15°C	1.12
Boiling point, °C2	129.40
Freezing point, °C2 ASTM D1177	-37
pH3, ASTM D 1287	8.50
Reserve alkalinity4, ASTM D1121	6
Silicate, %5	None

PERFORMANCE STANDARDS

- ASTM D6210
- ASTM D3306

Available Packed Size: 18L and 200L
